

SAVING FARMLAND IS HOMELAND SECURITY

Dear Governor Corzine:

In the furtherance of the goals of Homeland Security (that is, our homeland being more secure from the threats of international food contamination and from the possibility of global transportation breakdowns and other threats),

we the undersigned seek your assistance in the preservation of New Jersey's great and world-class farmland in the New Jersey Highlands and throughout the state. **We call for a moratorium –**

NO MORE HOUSES ON FARMLAND - until a plan TO SAVE OUR FARMS is in place.
